

PREMRAJ DEVIDAS GAIKWAD

Aspiring Software Developer | Full Stack Developer | Java Backend Developer

Pune, Maharashtra, India | Phone: [9561857309](tel:9561857309) | Email: premrajgaikwad1@gmail.com | [LinkedIn](#) | [Github](#)

PROFESSIONAL SUMMARY

IT Engineering student with hands-on experience building responsive, user-focused web applications using HTML, CSS, JavaScript, and Java. Frontend Developer Intern with practical exposure to UI development, DOM manipulation, and debugging in a professional team environment. Strong foundation in object-oriented programming (Java, C++, Python) and eager to grow these skills toward full-stack and backend development roles. Quick learner with strong problem-solving ability and a track record of independently delivering complete, working projects.

TECHNICAL SKILLS

Programming Languages: Java, Python, C++, JavaScript

Backend Technologies: Java (Object-Oriented Programming), REST API concepts, Data Structures fundamentals, SDLC awareness

Frontend Technologies: HTML5, CSS3, JavaScript (ES6), DOM Manipulation, Responsive Web Design, AJAX

Databases: Currently building proficiency in SQL / MySQL (see Additional Information)

Tools & Platforms: VS Code, Browser DevTools, RESTful API integration, Postman (basic)

Version Control: Git, GitHub

PROJECTS

UPI Offline Mesh Payment System | *Java, Spring Boot, REST APIs, MySQL*

- Developed an offline UPI-style payment system using a peer-to-peer mesh network for transactions without internet access.
- Built REST APIs for transaction processing, authentication, and payment status tracking.
- Designed a Spring Boot and MySQL backend for secure transaction storage and synchronization.
- Implemented offline transaction queuing and automatic sync when connectivity is restored.

Grocery Store Website API | *HTML, CSS, JavaScript*

- Built a front-end grocery e-commerce site with dynamic product listing, an interactive cart, and quantity management using vanilla JavaScript and DOM manipulation.
- Designed a fully responsive, mobile-friendly layout using CSS Flexbox/Grid with a clean, intuitive UI/UX flow from product view to checkout.

Weather Map with Integrated APIs | *HTML, CSS, JavaScript, REST API Integration*

- Developed a landing page integrating a third-party weather API with location-based search, consuming and rendering live JSON responses via JavaScript fetch/AJAX.
- Implemented map-based visualization alongside live weather data, strengthening practical skills in asynchronous JavaScript and API error handling.

Portfolio Web Application (3D-reactive scrollable) | *HTML, CSS, JavaScript*

- Built a personal portfolio site featuring a stopwatch utility with start, stop, reset, and lap-recording functionality using precise JavaScript-based time tracking.

WORK EXPERIENCE

Frontend Developer Intern — Prodigy Infotech

- Developed responsive, user-friendly web pages and built interactive UI components using HTML, CSS, and JavaScript for live client-facing projects.
- Collaborated with team members on frontend project delivery, and debugged/optimized web applications for better performance and cross-browser reliability.

EDUCATION

Bachelor of Engineering — Information technology Engineering

Sinhgad College of Engineering, Vadgaon BK, Pune, Maharashtra — Pursuing

HSC (Class XII) — Maharashtra State Board

2022 — Percentage: 83.00%

SSC (Class X) — Maharashtra State Board

2020 — Percentage: 87.80%

ACHIEVEMENTS

- Academic performance: 87.80% in SSC and 83.00% in HSC (Maharashtra State Board); independently designed and delivered 4 complete front-end web projects with an 3D reactive scrolabe website.

ADDITIONAL INFORMATION

- Quick learner with strong problem-solving and communication skills; actively expanding into backend development (Java, REST APIs, SQL/MySQL). Open to relocation and full-time fresher opportunities.
